

INDEPENDENT AUDITOR'S REPORT

To the Members of Coca-Cola India Foundation

Report on the Audit of the Financial Statements**Opinion**

We have audited the accompanying financial statements of Coca-Cola India Foundation ("the Company"), which comprise the Balance Sheet as at 31 March 2021, and the statement of Income and Expenditure (including Other Comprehensive Income), Statement of changes in equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015 as amended and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, and its loss (including Other Comprehensive Income), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Director's report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

We give in "Annexure A" a detailed description of Auditor's responsibilities for Audit of the Financial Statements.

Report on Other Legal and Regulatory Requirements

1. This Report does not include a statement on the matters specified in paragraph 3 and 4 of the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section 11 of Section 143 of the Act, since in our opinion and according to the information and explanations given to us, the said Order is not applicable to the Company.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, and the statement of Income and Expenditure (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.

- (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standard) Rules, 2015 as amended.
- (e) On the basis of the written representations received from the directors as on 31 March 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company does not have any pending litigations which would impact its financial position
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
3. In our opinion, according to information, explanations given to us, the provisions of Section 197 of the Act and the rules thereunder are not applicable to the Company as it is a private Company.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT ON EVEN DATE ON THE FINANCIAL STATEMENTS OF COCA COLA INDIA FOUNDATION FOR THE YEAR ENDED 31 MARCH 2021

Auditor's Responsibilities for the Audit of the Financial Statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

MSKA

& Associates

Chartered Accountants

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF COCA COLA INDIA FOUNDATION FOR THE YEAR ENDED 31 MARCH 2021

[Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditors' Report]

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Coca Cola India Foundation ("the Company") as of 31 March 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI) (the "Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls With Reference to Financial Statements

A Company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31 March 2021, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

Coca-Cola India Foundation

Notes to financial statements for the year ended 31 March 2021

1. Corporate information

Coca-Cola India Foundation ("the Company") was incorporated under section 25 of the Companies Act 1956 (Section 8 of the Companies Act, 2013) in India on 17 September 2008 as a non-profit organisation. It aims to promote charitable activities in the field of water sustainability, climate change, waste management, energy management, social development/empowerment, healthy living, and education and to preserve the cultural and national heritage of India, without any profit motive. The registered office of the Company is located at 13, Abul Fazal Road, Bengali Market, New Delhi, India - 110001.

The financial statements were authorised for issue in accordance with a resolution of the board of directors on 31 August 2021.

2. Basis of preparation:

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended.

The financial statements have been prepared on a historical cost basis.

The financial statements are presented in Indian Rupees ('₹') and all values are rounded to the nearest thousands (₹ in '000), except otherwise indicated.

2.1 Summary of significant accounting policies

A summary of significant accounting policies, which have been applied, are set out below. The Company does not carry on business for profit and accordingly, a Statement of Income and Expenditure has been prepared.

a. Current versus non-current classification

The Company presents assets and liabilities in the Balance Sheet based on current/ non-current classification. An asset is treated as current when it is:

- i. expected to be realised or intended to be sold or consumed in normal operating cycle;
- ii. held primarily for the purpose of trading;
- iii. expected to be realised within twelve months after the reporting period; or
- iv. cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- i. it is expected to be settled in normal operating cycle;
- ii. it is held primarily for the purpose of trading;
- iii. it is due to be settled within twelve months after the reporting period; or
- iv. there is no unconditional right to defer the settlement of the liability for at least twelve months after the end of the reporting period

The Company classifies all other liabilities as non-current.

The Company has identified twelve months as its operating cycle.

b. Foreign currencies

Items included in the financial statements of the Company are measured using the currency of the economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Indian Rupee ('₹'), which is the Company's functional and presentation currency.

Coca-Cola India Foundation
Notes to financial statements for the year ended 31 March 2021

c. Fair value measurement

The Company measures financial instruments at fair value at each Balance Sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for valuation methods, significant estimates and assumptions (refer note 2.2)
- Financial instruments (including those carried at amortised cost) (refer note 22)

d. Recognition of income from donations

Income from unconditional grants and donations are recognized when there is reasonable assurance of receiving the same and the amount can be reliably measured.

e. Donation given for project execution expenses

Donations given for project execution expenses are recognized as an expense in the period it is made. The expenses are incurred for various activities and projects which are undertaken by the various not for profit organizations to which the Company donates. The donation for the projects is paid by the Company in tranches based on the extent of completion of the projects and / or work done for the project.

Coca-Cola India Foundation
Notes to financial statements for the year ended 31 March 2021

f. Income taxes

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

The Company's income is entitled to exemption under Section 11 read with Section 2(15) of the Income Tax Act, 1961 and accordingly current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the aforesaid provisions.

g. Retirement and other employee benefits

Retirement benefit is in the form of provident fund in which both the employee and the Company make monthly contributions to the provident fund equal to a specified percentage of employee's salary. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the Balance Sheet date, then excess is recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payment or a cash refund. The Company contributes a part of the contributions to the Coca-Cola India Inc., Provident Fund "CC IPL short

The rate at which the annual interest is payable to the beneficiaries by the Trust is being administered by the Trustees, which shall not be less than the rates notified by the government. The Company has an obligation to make good the shortfall, if any, between the return from the investments of the Trust and the notified interest rate.

The Company operates another defined benefit plan for its employees viz., gratuity. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to the Statement of Income and Expenditure in subsequent periods.

Past service costs are recognised in the Statement of Income and Expenditure on the date of the plan amendment or curtailment.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the Statement of Income and Expenditure:

- i. Service costs comprising current service costs, past-service costs, gains and deficits on curtailments and non-routine settlements; and
- ii. Net interest expense or income

h. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement:

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through Statement of Income and Expenditure, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement:

For purposes of subsequent measurement, financial assets are classified as debt instruments at amortised cost.

Coca-Cola India Foundation

Notes to financial statements for the year ended 31 March 2021

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the surplus or deficit. The deficit arising from impairment are recognised in the Statement of Income and Expenditure. This category generally applies to trade and other receivables.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the Company's Balance Sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Financial liabilities

Initial recognition and measurement

The Company's financial liabilities include trade payables. These are recognised initially at fair value net of directly attributable transaction costs.

Subsequent measurement

After initial recognition, financial liabilities are subsequently measured at amortised cost using the EIR method. Gains and deficits are recognised in the Statement of Income and Expenditure when the liabilities are derecognised as well as through the EIR amortisation process.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Income and Expenditure.

i. Cash and cash equivalents

Cash and cash equivalents in the cash flow statement comprise of cash at bank.

j. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of Income and Expenditure net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Coca-Cola India Foundation
Notes to financial statements for the year ended 31 March 2021

k. Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

l. Leases

With the effect from 1 April 2019, the Company has adopted Ind AS 116 - Leases using the modified retrospective approach. As a result, Company has recognised "Right of Use Assets" and "Lease liability" as at the transition date. Further, the expenses towards such lease are now recorded as amortisation on "Right of Use Assets" and finance cost on "Lease liability", instead of rent expense.

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

i) Right-of-use assets

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term or the estimated useful lives of the assets. The right-of-use assets are also subject to impairment.

ii) Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments

iii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

m) Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Coca-Cola India Foundation
Notes to financial statements for the year ended 31 March 2021

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the companies CGUs to which the individual assets are allocated.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of income and expenditure.

2.2 Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of incomes, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The areas involving critical estimates or judgements are as below:

Defined benefit plans (gratuity benefits)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on mortality rates from Indian Assures Lives Mortality 2006-08. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

Further details about gratuity obligations are given in Note 20.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. See Note 22 for further disclosures.

Impairment of financial assets

The impairment allowance for financial assets, other than trade receivable, are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

10A. Trade payable

	(₹ in '000)	
	As at 31 March 2021	As at 31 March 2020
Trade payable		
(A) total outstanding dues of micro enterprises and small enterprises;	18	9
(B) total outstanding dues of creditors other than micro enterprises and small enterprises	486	459
	504	468

- Trade payables are non-interest bearing and are normally settled within a period of 30-120 days.

Refer note 23 for explanations on the Company's liquidity risk management process.

Based on the information available with the Company about the suppliers who have intimated their status as Micro and small enterprises as per the provision of Micro, Small and Medium Enterprise Development Act 2006:

(a) The principal amount and the interest due thereon remaining unpaid to the supplier at the end 31 March 2021 is ₹ 18 thousand and ₹ Nil, respectively (31 March 2020: ₹ 9 thousand).

(b) The amount of interest paid by the buyer in terms of section 16 of the Micro, Small and Medium Enterprises Development Act, 2006 is ₹ 6 thousand (31 March 2020: Nil) and the amount of the payment made to the supplier beyond the appointed day during the current year is ₹ 137 thousand (31 March 2020: ₹ 40 thousand).

(c) The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under the Micro, Small and Medium Enterprises Development Act, 2006 is ₹ Nil (31 March 2020: ₹ Nil).

(d) The amount of interest accrued and remaining unpaid at the end of 31 March 2021 is ₹ Nil (31 March 2020: ₹ 9 thousands).

(e) The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues above are actually paid to the small enterprise, for the purpose of disallowance of a deductible expenditure under section 23 of the Micro, Small and Medium Enterprises Development Act, 2006 is ₹ Nil (31 March 2020: ₹ 9 thousand).

Coca-Cola India Foundation
Notes to financial statements for the year ended 31 March 2021

19. Earnings per share (EPS)

Basic EPS amounts are calculated by dividing the surplus for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the surplus for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all dilutive potential equity shares into equity shares.

The following reflects the surplus and share data used in the basic and diluted EPS computations:

	For the year ended 31 March 2021	For the year ended 31 March 2020
Net surplus for calculation of basic and diluted EPS (₹ in '000)	(2,633)	320
Weighted average number of equity shares in calculating basic and diluted EPS	50,000	50,000
Basic and diluted EPS (₹ in per share)	(52.66)	6.40

20. Employee benefits

(i) Gratuity

	(₹ in '000)	
	As at 31 March 2021	As at 31 March 2020
Provision for gratuity	7,176	6,478
Current	854	755
Non-Current	6,322	5,723

The Company has a defined benefit gratuity plan. In accordance with the policy of the Company, every employee who has completed five years or more of service gets a gratuity on separation at 15 days salary (last drawn salary) for each completed year of service.

The Company's gratuity plan is unfunded, hence, the contribution expected to be paid to the plan assets during the annual period beginning after the balance sheet date will be paid as and when it is accrued.

The following tables summarises the components of net benefit expense recognized in the Statement of Income and Expenditure / Other Comprehensive Income and amounts recognized in the Balance Sheet for the defined benefit obligations (DBO).

Statement of income and expenditure

Net employee benefit expense recognized in employee benefits expense-

	(₹ in '000)	
	For the year ended 31 March 2021	For the year ended 31 March 2020
Current service cost	158	94
Interest cost on defined benefit obligation	402	250
Net benefit expense	560	344

Other comprehensive income

Net employee benefit expense recognized in Other Comprehensive Income (OCI)

	(₹ in '000)	
	For the year ended 31 March 2021	For the year ended 31 March 2020
Remeasurement (gain)/loss due to DBO experience	223	2,283
Remeasurement (gain)/loss due to DBO assumption changes		
- Demographic assumption	-	-
- Financial assumption	(85)	335
Remeasurement (gain)/loss for the year on present benefit obligation	138	2,618

Coca-Cola India Foundation
Notes to financial statements for the year ended 31 March 2021

Balance sheet

	(₹ in '000)	
	As at 31 March 2021	As at 31 March 2020
Defined benefit obligation	7,176	6,478
Fair value of plan assets	-	-
Net plan liability	7,176	6,478

Changes in the present value of the defined benefit obligation are as follows:

	(₹ in '000)	
	As at 31 March 2021	As at 31 March 2020
Opening defined benefit obligation	6,478	3,516
Current service cost	158	94
Interest cost	402	250
Benefits paid	-	-
Actuarial loss/(gain) on obligation	138	2,618
Closing defined benefit obligation	7,176	6,478

The principal assumptions used in determining gratuity obligations for the current year with respect to the Company's plans are shown below:

	For the year ended 31 March 2021	For the year ended 31 March 2020
Discount rate	6.10%	6.20%
Salary growth rate #	7% for the first year and 9% p.a. there after	9.00%
Mortality rates	IALM (2006 - 08)	IALM (2006 - 08)
Employee turnover	13.00%	13.00%

The estimates of future salary increases considered in actuarial valuation take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

Sensitivity analysis of the defined benefit obligation

	(₹ in '000)	
	For the year ended 31 March 2021	For the year ended 31 March 2020
a) Impact of the change in discount rate		
Present value of obligation at the end of the period	7,176	6,478
Impact due to increase of 0.50 %	(203)	(190)
Impact due to decrease of 0.50 %	213	199
b) Impact of the change in salary escalation rate		
Present value of obligation at the end of the period	7,176	6,478
Impact due to increase of 0.50 %	208	194
Impact due to decrease of 0.50 %	(199)	(187)
c) Impact of the change in withdrawal rate		
Present value of obligation at the end of the period	7,176	6,478
Impact due to increase of 0.50 %	(223)	(222)
Impact due to decrease of 0.50 %	330	322

Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement and life expectancy are not applicable being a lump sum benefit on retirement.

Coca-Cola India Foundation
Notes to financial statements for the year ended 31 March 2021

Maturity profile of defined benefit obligation

Year	(₹ in '000)	
	As at 31 March 2021	As at 31 March 2020
Within 1 year	880	778
Between 1 and 2 year	837	755
Between 2 and 3 year	811	732
Between 3 and 4 year	785	709
Between 4 and 5 year	759	687
Beyond 5 years	3,417	3,100

The weighted average duration of the defined benefit obligation at the end of reporting period is 6 years (31 March 2020 : 6 years)

The Gratuity scheme is a final salary Defined benefit plan that provides for a lump sum payment made on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The plan design means the risks commonly affecting the liabilities and the financial results are expected to be:

1. Interest risk : The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.
2. Salary inflation risk: Higher than expected increase in salary will increase the defined benefit obligation.
3. Demographic risk: This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to long service employee.

ii) Interest rate guarantee with respect to contribution to provident fund

Provision for interest rate guarantee	(₹ in '000)	
	As at 31 March 2021	As at 31 March 2020
	-	-

Eligible employees of the Company receive benefits from provident fund scheme, which is a defined contribution plan, wherein the Company has an obligation to make good the shortfall, if any, between the return from the investment of the Trust and the notified interest rate.

The Institute of Actuaries of India has issued a guidance note on valuation of interest rate guarantees on exempt provident funds under Ind AS 19. The actuary has accordingly valued the same and there is shortfall of Nil (31 March 2020: Nil) in the fund balance as at 31 March 2021. The actuary has followed deterministic approach as prescribed by the guidance note.

Statement of Income and Expenditure

The Company has contributed ₹378 thousand (31 March 2020: ₹ 309 thousand) towards provident fund during the year ended 31 March 2021 and recognised the same in employee benefits expense.

Coca-Cola India Foundation**Notes to financial statements for the year ended 31 March 2021****22. Fair values**

The management assessed that cash and cash equivalents, other financial assets, trade payables and other financial liabilities approximate their carrying amount largely due to short-term maturities of these instruments. The fair value of the financial assets is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

23. Financial risk management objectives and policies

The Company's principal financial liabilities comprise trade payables, lease liability and other financial liability. The Company's principal financial assets include loans, cash and cash equivalents and other financial assets that derive directly from its operations. Since the Company's operations are driven primarily by the donations received from the holding company, as such, there is no risk attributable to the Company's operations.

Maturity profile of financial liabilities

The table below summarizes the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

				(₹ in '000)
	Less than 1 year	1 to 5 years	More than 5 years	Total
31 March 2021				
Lease liability	310	181	-	491
Trade payables	504	-	-	504
Other financial liabilities	571	-	-	571
31 March 2020				
Lease liability	310	491	-	801
Trade payables	468	-	-	468
Other financial liabilities	626	-	-	626

24. The Ministry of Corporate Affairs ("MCA"), has recently made certain changes to the provision in relation to implementation of Corporate Social Responsibility activities (CSR) by corporates by amending the Companies Act, 2013 ("the Act") and Companies (Corporate Social Responsibility) Rules, 2014 ("the Rules"). As per the new rules April 01, 2021 companies implementing CSR activities, can do so either by themselves, or only through Implementing Agencies ("IA") which are registered with MCA.

The Company has got itself registered as an IA with MCA, as it fulfills all prescribed criteria laid down in the rules. Coca-Cola India Private Limited (CCIPL), the parent company, is considering implementing its CSR projects only through IAs which are registered with MCA and has evinced interest to appoint the Company as its IA for various CSR projects for the FY 2021-22. Discussion in relation to this are in the final stages and the Company is expecting that it will execute grant agreement (s) in this regard with CCIPL shortly.

25. During the year, the Company earned total income of ₹ 10,500 thousand (31 March 2020: ₹ 135,500 thousand) and spent ₹ 13,133 thousand (31 March 2020: ₹ 135,987 thousand) on charitable activities.

The total expenditure incurred during the current year, constitute more than 85% of the total income of the Company. Accordingly, the Company's entire income for the financial year is exempt from income tax under Section 11 of the Income Tax Act, 1961 ("The Act"). The Company was granted registration by the DIT (Exemption), New Delhi under Section 12A read with Section 12AA of the Act vide order no. DIT (E)/12A/ 2008-09/C-1104/555 of 6 March 2009. The Company has also received approval of the DIT (Exemption), New Delhi under Section 80G in respect of donations made to it vide order no. DIT (E) 2008-09/C-1104/3183 of 6 March 2009.

26. The Company was incorporated on 17 September 2008, as a not for profit company under section 25 of the Companies Act, 1956 (Section 8 of The Companies Act 2013). It is a wholly owned subsidiary of Coca-Cola India Private Limited (hereinafter referred to as "CCIPL"). The Company is receiving donations and the same are utilized for implementation of various projects. The donations have been received from a single source, i.e. CCIPL.
